Adarsh Patil

Computer Engineering Student — Full-Stack Developer — AI/ML Enthusiast

Github | adarshpatil.runs-on.dev | Linkedin | adarshpatil.tech07@gmail.com

SUMMARY

Computer Engineering student at **Suryodaya College of Engineering & Technology, Nagpur**, focused on **full-stack development** and **AI/ML**. Comfortable with **React, TypeScript, FastAPI and PostgreSQL**, and have built a **RAG document Q&A chatbot** using **LangChain and Gemini**. Deployed a full-stack movie review platform live on **Vercel** and had a pull request **merged into an open-source repository**. Completed AI/ML internships and virtual programs with Datheon, EduSkills (Google), McKinsey.org, EY and Deloitte. Seeking an engineering internship.

PROFESSIONAL EXPERIENCE

Datheon | *Python + Generative AI & LangChain Intern* Internship

- Built a **RAG Document Q&A chatbot** with **LangChain, Gemini, ChromaDB and Streamlit** that answers questions across multiple uploaded PDFs with **document citations**.
- Worked hands-on with **LLM integration** and **structured data extraction** in **Python**.

EduSkills Foundation | *Google AI/ML Virtual Intern* Virtual

- Gained hands-on experience with **AI/ML concepts** and **Google's AI/ML technologies** through a virtual internship program.

SKILLS

Python, TypeScript, JavaScript, SQL, C/C++, React, TanStack, Tailwind CSS, HTML/CSS, Node.js, Django, FastAPI, PostgreSQL, MongoDB, NumPy, Pandas, scikit-learn, Matplotlib, TensorFlow, LangChain, Vector DB, Git, GitHub Actions, Docker, Linux, Vite, Streamlit, Figma, Canva

PROJECTS

Absolute Cinema | *FastAPI, React, TypeScript, PostgreSQL, OMDb API, JWT* absolute-cinema-coral.vercel.app

- Built a **Letterboxd-style movie platform** with **JWT authentication**, watchlists, ratings and reviews, and custom lists, with **OMDb** movie data and response caching.
- Deployed the frontend and **FastAPI** backend on **Vercel** with **Neon Postgres**; migrated the frontend to **React + TypeScript (Vite)**.

RAG Document Q&A Chatbot | *Python, LangChain, Gemini, ChromaDB, Streamlit* adarsh-rag-chatbot.streamlit.app

- An AI document assistant that lets users upload multiple PDFs and ask questions using **Retrieval-Augmented Generation** and **vector embeddings**, returning contextual answers with citations.

NutriScan — Food Label Explainer | *Next.js, TypeScript, Tailwind CSS, Tesseract.js* College CEP Project

- Built an **OCR-based web app** that scans nutrition labels and explains them in plain language, with **scan history, a dashboard** and a **dietary profile**.

TensorFlow Computer Vision | *Python, TensorFlow, Keras, NumPy* github.com/adarshpatil-07

- Trained a **neural network image classifier** on **Fashion MNIST** (70,000 images, 10 classes) with data normalization, evaluation and prediction visualization.

OPEN SOURCE

Understand-Anything | *Git, GitHub, Markdown* PR #756 (Merged)

- Added **VS Code and GitHub Copilot installation instructions** to the main README and **8 translated READMEs**; reviewed and **merged into main**.

CERTIFICATIONS

- **McKinsey.org — Forward Program:** problem-solving, communication, leadership and analytical thinking.
- **EY — Microsoft AI Skills Passport:** foundational AI knowledge and Microsoft's AI tools and technologies.
- **Deloitte — Data Analytics Virtual Experience (Forage):** data analysis, interpreting business data and communicating insights.

EDUCATION

Suryodaya College of Engineering & Technology 2025 – 2029 | Nagpur

B.Tech, Computer Engineering

- Coursework: data structures, algorithms, computer architecture, operating systems, databases, networks, software development.
